Claims 18 to 31 are pending in the application. Note that claims 19 to 32 presented in the preliminary amendment filed January 8, 2001 have been renumbered as claims 18 to 31 since there were only claims 1 to 17 as originally filed.

Receipt is acknowledged of the request for reconsideration filed May 28, 2002, which has been entered in the file.

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 18 to 31 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1 to 18 of U.S. Patent No. 6,187,799. Although the conflicting claims are not identical, they are not patentably distinct from each other because a substantial amount of the compounds in the claims are identical. For example, the twenty nine compounds used in the method of instant claim 18 are

Art Unit: 1626

the same as twenty nine of the thirty compounds used in the method of claim 1 of the patent. One of ordinary skill in the art would have been motivated to make the claimed compounds with the expectation that they would be useful for the same purpose as disclosed in the patent.

Applicant's arguments filed May 28, 2002 have been fully considered but they are not persuasive. Applicants argue that support of a case of obviousness-type double patenting requires reasons why the claims are structurally obvious and that the rejection is internally inconsistent, as it does not reject claims 31 and 32 on this basis. The claims are obvious because identical compounds are used for the same purpose as the compounds claimed in that patent. Additionally, claim 31 is also rejected in the instant office action on obviousness-type double patenting grounds.
